

NORFMA 2017 CONFERENCE

September 26-29, 2017

Seaside, Oregon

Managing Assets For The Future: Resilient Coastal and Riverine Floodplains

CALL for ABSTRACTS: We are seeking submittals for workshops or presentations on floodplain projects, regulatory environment, and other emerging issues:

Integrated and Innovative Projects & Management Approaches

- Managing Stormwater & Urban Flooding
- Sea Level Rise, Climate Science & Floodplain Management
- Sediment Management
- Ecosystem Valuation & Cost-Benefit Decisions
- Planning and Implementation of Multi-Benefit Projects

Floodplain Management Regulations and Local Perspectives

- The Endangered Species Act & NFIP (WA, OR)
- Floodplain Permit Processes, Planning, Zoning – especially coastal / V Zones
- NFIP Compliance: Case Studies
- Community Rating System: Successes, Challenges
- Riparian Natural and Beneficial Function

Flood Hazard Management and Mitigation

- Engineering and Mapping Methods and Tools
- Coastal Risk Hazard Mapping and Management Issues
- Erosion (Coastal, Post-Wildfire)
- Policy Tracks - Federal or State Level

Other topics or ideas that illustrate the conference theme & related principles are also welcome.

=====

Due date for submissions is **July 8, 2017**. Presenters will be contacted by *July 22, 2017*.

Submit your 1 page abstract to:

Henry Hu (Program Co-coordinator): hhu@westconsultants.com

Please include the following:

- Single Presentation Format (30 min.) *or* Workshop Format (90 min or half/full day)
- Preferred day/AM or PM for your presentation, if applicable.
- Must include author bio (2-3 sentences), and contact information

Thank you for participating in this year's conference!
